MARINE DEPARTMENT,  
7, WHITEHALL GARDENS,  
LONDON, S.W.,  
5th February, 1904.

SIR,—I am directed by the Board of Trade to state for the information of Mr. Secretary Lyttelton that, in view of the material difference now existing between the British rules of tonnage measurement and those in force in France and Spain, Orders in Council have been made under the provisions of section 84 (3) of the Merchant Shipping Act, 1894, providing for the re-measurement of French and Spanish ships in British ports.

Copies of these Orders are forwarded herewith, and I am to state that it is proposed to bring them into operation on the first of April next, from which date French and Spanish ships will be subject to re-measurement unless they are provided with Certificates of British tonnage.

I am also to forward to you 200 additional copies of each Order for transmission to the Colonies.

I am, etc.,

AT THE COURT AT BUCKINGHAM PALACE,  
The 29th day of January, 1904.

PRESENT:

THE KING'S MOST EXCELLENT MAJESTY IN  
COUNCIL.

Whereas by an Order in Council, dated the 17th day of March, 1875, after reciting that by "The Merchant Shipping Act Amendment Act, 1862," it was enacted that, whenever it was made to appear to Her late Majesty that the rules concerning the measurement of tonnage of merchant ships for the time being in force under the principal Act, had been adopted by the Government of any foreign country, and were in force in that country, it should be lawful for Her Majesty, by Order in Council, to direct that the ships of such foreign country should be deemed to be of the tonnage denoted in their certificates of registry or other national papers, and thereupon it should no longer be necessary for such ships to be re-measured in any port or place in Her Majesty's Dominions, but such ships should be deemed to be of the tonnage denoted in their certificates of registry or other papers, in the same manner, to the same extent, and for the same purposes, in, to, and for which the tonnage denoted in the certificates of registry of British ships was to be deemed the tonnage of such ships, and reciting that it had been made to appear to Her late Majesty that the rules concerning the measurement or tonnage of merchant ships then in force under "The Merchant Shipping Act, 1854," had been adopted by the Government of His Majesty the King of Spain, with the exception of a difference in the mode in certain steamers of estimating the allowance for engine-room, and such rules were then in force in that country, having come into operation on the 2nd day of December, 1874, Her

Majesty was thereby pleased, by and with the advice of Her Privy Council, to direct as follows:—

1. As regards sailing ships, that merchant sailing ships of the said Kingdom of Spain, the measurement whereof after the said 2nd day of December, 1874, had been ascertained and denoted in the registers and other national papers of such sailing ships, testified by the date thereof, should be deemed to be of the tonnage denoted in such registers and other national papers in the same manner, and to the same extent, and for the same purpose, in, to and for which the tonnage denoted in the certificate of registry of British sailing ships was deemed to be the tonnage of such ships:

2. As regards steamships, that merchant ships belonging to the said Kingdom of Spain which were propelled by steam or any other power requiring engine-room, the measurement whereof should, after the said 2nd day of December, 1874, have been ascertained and denoted in the registers and other national papers of such steam ships, testified by the dates thereof, should be deemed to be of the tonnage denoted in such registers or other national papers in the same manner, and to the same extent, and for the same purpose, in, to, and for which the tonnage denoted in the certificate of registry of British ships was deemed to be the tonnage of such ships; provided, nevertheless, that if the owner or master of any such Spanish steam ship desired the deduction for engine room in his ships to be estimated under the rules for engine room measurement and deduction applicable to British ships instead of under the Spanish rule, the engine room should be measured and the deduction calculated according to the British rules.

And whereas the "Merchant Shipping Act Amendment Act, 1862," was repealed by the "Merchant Shipping Act, 1894," but by section 745 of the latter Act it is amongst other things provided that any Order in Council made under any enactment thereby repealed shall continue in force as if it had been made under the said Act of 1894:

And whereas by section 84 of the "Merchant Shipping Act, 1894," it is enacted as follows:—

84.—(1.) Whenever it appears to Her Majesty the Queen in Council that the tonnage regulations of this Act have been adopted by any foreign country, and are in force there, Her Majesty in Council may order that the ships of that country shall, without being re-measured in Her Majesty's Dominions, be deemed to be of the tonnage denoted in their certificates of registry or other national papers, in the same manner, to the same extent, and for the same purposes as the tonnage denoted in the certificate of registry of a British ship is deemed to be the tonnage of that ship:

(2.) Her Majesty in Council may limit the time during which the Order is to remain in operation, and make the Order subject to such conditions and qualifications (if any) as Her Majesty may deem expedient, and the operation of the Order shall be limited and modified accordingly:

(3.) If it is made to appear to Her Majesty that the tonnage of any foreign ship, as measured by the rules of the country to which she belongs, materially differs from that which would be her tonnage if measured under this Act, Her Majesty in Council may order that, notwithstanding any Order in Council for the time being in force under this section, any of the ships of that country may, for all or any of the purposes of this Act, be re-measured in accordance with this Act:

And whereas by section 30 of the "Interpretation Act, 1889," it is enacted that in that Act, and in every other Act whether passed before or after the commencement of that Act, references to the Sovereign reigning at the time of the passing of the Act or to the Crown shall, unless the contrary intention appears, be construed as references to the Sovereign for the time being, and that Act shall be binding on the Crown:

And whereas it has been made to appear to His present Majesty that the tonnage of Spanish ships as measured by the rules concerning the measurement of tonnage of merchant ships of Spain materially differs from that which would be the tonnage of such ships if measured under the "Merchant Shipping Act, 1894":

Now, therefore, His Majesty in Council doth Order that notwithstanding the heretofore recited Order in Council, dated the 17th day of March, 1875, any of the ships of Spain may for all or any of the purposes of the "Merchant Shipping Act, 1894," be re-measured in accordance with the said Act.

And whereas the "Merchant Shipping Act Amendment Act, 1862," was repealed by the "Merchant Shipping Act, 1894," but by section 745 of the latter Act it is amongst other things provided that any Order in Council made under any enactment thereby repealed shall continue in force as if it had been made under the said Act of 1894:

any exclusive or peculiar rights or privileges whatever, or for doing any matter or thing which in its operation would affect the rights or property of other parties, or relate to any particular class of the community, or for making any amendment of a like nature to any former Act,—shall require a Notice, clearly and distinctly specifying the nature and object of the application and, where the application refers to any proposed work, indicating generally the location of the work, and signed by or on behalf of the applicants, such notice to be published as follows:—

In the BRITISH COLUMBIA GAZETTE, and in one newspaper published in the District affected, or if there be no newspaper published therein, then in a newspaper in the next nearest District in which a newspaper is published.

Such notice shall be continued in each case for a period of at least six weeks, during the interval of time between the close of the next preceeding Session and the consideration of the Petition, and copies of such notice shall be sent by the parties inserting such notice to the Clerk of the House to be filed amongst the records of the Committee on Standing Orders.

57. No Petition for any Private Bill shall be received by the House after the first ten days of each Session, nor may any Private Bill be presented to the House after the first three weeks of each Session, nor may any Report of any Standing or Select Committee upon a Private Bill be received after the first four weeks of each Session, and no Motion for the suspension or modification of this Rule shall be entertained by the House until the same has been reported on by the Committee on Standing Orders, or after reference made thereof at a previous sitting of the House to the Standing Committees charged with consideration of Private Bills, who shall report thereon to the House. And if this Rule shall be suspended or modified as aforesaid the promoters of any Private Bill which is presented after the time hereinbefore limited, or for which the Petition has been received after the time hereinbefore limited, shall in either case pay double the fees required as herein mentioned, unless the House shall order to the contrary. Any person seeking to obtain any Private Bill shall deposit with the Clerk of the House, eight days before the opening of the Session, a printed copy of such Bill, a copy of the Petition to be presented to the House, *together with the notices published*. At the time of depositing the Bill, the applicant shall also pay to the Clerk of the House a sum of three hundred dollars. If a copy of the Bill, Petition and notices shall not have been so deposited in the hands of the Clerk of the House at least eight days before the opening of the Session, and if the Petition has not been presented within the first ten days of the Session, the amount to be paid to the Clerk shall be six hundred dollars. If the Bill shall not pass second reading one-half of the fees paid shall be returned.

60. Before any Petition, praying for leave to bring in a Private Bill for the erection of a Toll Bridge, is received by the House, the person or persons intending to petition for such Bill shall, upon giving the notice prescribed by rule 59, also at the same time and in the same manner, give notice of the rates which they intend to ask, the extent of the privilege, the height of the arches, the interval between the abutments or piers for the passage of rafts and vessels, and mentioning also whether they intend to erect a draw-bridge or not, and the dimensions of the same.

61. All Private Bills for Acts of Incorporation shall be so framed as to incorporate by reference the clauses of the General Acts relating to the details to be provided for by such Bills:—Special grounds shall be established for any proposed departure from this principle, or for the introduction of other provisions as to such details, and a note shall be appended to the Bill indicating the provisions thereof in which the General Act is proposed to be departed from. Bills which are not framed in accordance with this Rule shall be re-cast by the promoters and re-printed at their expense before any Committee passes upon the clauses.

65. ## DOMINION ORDERS IN COUNCIL.

(Ref. 873,213.)

AT THE GOVERNMENT HOUSE AT OTTAWA.

Thursday, the 10th day of March, 1904.

PRESENT:

HIS EXCELLENCY THE GOVERNOR-GENERAL  
IN COUNCIL.

ON a Report dated 5th February, 1904, from the Minister of the Interior, stating that Mr. Hewitt Bostock, of Monte Creek, in British Columbia, has requested to be allowed to purchase the following lands in the "Forty Mile Railway Belt," in the said Province, the lands being of inferior quality and only fit for grazing purposes he has offered \$2.00 per acre for them. The Homestead Inspector has examined and reported upon these lands and states that they can be considered of very little value except for grazing purposes, and as such grazing lands they cannot be considered valuable at present owing to the fact that the natural grasses have all been killed and are not in his opinion worth more per acre than offered by Mr. Bostock. The lands are as follows:—

E. $\frac{1}{2}$ of Section 28	320 acres.
S. W. $\frac{1}{4}$ " 28	160 "
W. $\frac{1}{2}$ " 27	320 "
W. $\frac{1}{2}$ of S. E. $\frac{1}{4}$ 27	80
	880 "

in Township 19, in Range 14, west of the 6th Meridian, British Columbia.

The Minister further states that it is provided in section 10 of "Regulations for the survey, administration, disposal and management of Dominion Lands within the 'Forty Mile Railway Belt,'" in the said Province, that no person shall be allowed to purchase a greater area of such land than 640 acres, except by the authority of the Governor in Council.

The Minister recommends, as Mr. Bostock has already purchased this area, that he be authorised to sell Mr. Bostock the lands in Township 19, before mentioned, and at the rate per acre before stated.

The Committee submit the same for approval.

EXTRACT FROM A REPORT OF A COMMITTEE OF THE  
HONOURABLE THE PRIVY COUNCIL APPROVED BY  
HIS EXCELLENCY ON THE 8TH JANUARY, 1904.

ON a Report dated 21st December, 1903, from the Minister of the Interior, stating that provision is made in Paragraph (i) of Section 1, Chapter 5, of 60-61 Victoria, being an Act to authorise a subsidy for a railway through the Crows' Nest Pass, for the conveyance to the Crown in the interest of Canada of fifty thousand acres of coal bearing land obtained by the Railway Company from the Government of British Columbia as a subsidy in connection with the construction of their line, such fifty thousand acres to be selected by the Government in such fair and equitable manner as might be determined by the Governor in Council and to be thereafter held or disposed of or otherwise dealt with by the Government as it might think fit, on such conditions as might be prescribed by the Governor in Council, for the purpose of securing a sufficient and suitable supply of coal to the public at reasonable prices, not exceeding two dollars per ton of

two thousand pounds free on board cars at the mines.

The Minister further states that a selection of the area in question was made under the provisions of the above section of the Act and this selection was approved by an Order in Council of the 19th of May, 1902.

The Minister recommends, as the Regulations for the sale of coal mining lands in Manitoba, the North-West Territories and the Province of British Columbia approved by Order in Council of the 19th day of May, 1902, would not appear to be applicable to the above area and would not meet the provisions of the said Act, that no mining regulations or other regulations for the sale or disposal of Dominion Lands shall apply to the area of 50,000 acres above referred to, or any part thereof, but that these lands shall only be disposed of as specially authorised by Order in Council.

The Committee submit the same for approval.

AT THE GOVERNMENT HOUSE AT OTTAWA.

Saturday, the 12th day of March, 1904.

PRESENT:

HIS EXCELLENCY THE GOVERNOR-GENERAL  
IN COUNCIL.

ON a Memorandum dated 26th February, 1904, from the Minister of the Interior, stating that the "West Side North Thompson School Section," British Columbia, has made application for the purpose of building a school thereon, for a free grant of one acre of land in the south-east quarter of Section 22, Township 22, Range 17, west of the 6th Meridian, which may be more particularly described as follows:—

Commencing at a point twenty-eight chains west of a post in the south-east corner of the north-east quarter of Section 22 in the said Township and Range; thence south 208 feet; thence west 209 feet six inches; thence north 208 feet; thence east to the point of commencement, containing one acre, more or less.

The Minister recommends that he be authorised to convey, for the purpose mentioned, under section 12 of the British Columbia Regulations respecting Dominion Lands, the one acre in question, which is vacant and available, to the West Side North Thompson School Section, the usual patent fee of \$10 to be remitted.

The Committee submit the same for approval.

(Ref. 460,207.)

AT THE GOVERNMENT HOUSE AT OTTAWA.

Wednesday, the 23rd day of March, 1904.

PRESENT:

HIS EXCELLENCY THE GOVERNOR-GENERAL  
IN COUNCIL.

WHEREAS under the Regulations for the disposal of coal lands, the property of the Dominion Government in Manitoba, the North-West Territories and British Columbia, established by Order in Council dated 19th May, 1902, provision is made for the sale of lands containing anthracite coal at an upset price of \$20.00 an acre, and for coal other than anthracite at an upset price of \$19.00 an acre, subject to the payment of royalty at the rate of ten cents per ton of 2,000 pounds on the output of the mine;

And whereas it is represented that settlers in the vicinity of coal mines have in the past been able to secure their supply of coal for fuel purposes at the rate of from \$1.00 to \$1.50 per ton, delivered at the pit's mouth; but that recently, where only a limited number of mines are being operated in any locality, there has been a tendency on the part of the mine owner to object to this class of trade, as loading the coal directly into cars is probably more convenient for him than disposing of it to the settler;

And whereas there appears to be no reason why the settlers should be required to pay an additional price for having the coal carried by rail to the nearest station if they can have the hauling done themselves,—

Therefore, the Governor-General in Council is pleased to order and doth hereby order that the Regulations for the disposal of coal lands above referred to be amended by providing that all sales of such lands shall in the future be made subject to the provision that actual settlers shall be entitled to buy, at the pit's mouth, whatever coal they may require for their own

use, but not for barter or sale, at a price not to exceed \$1.75 per ton, and that the patent which may be issued for coal lands shall be made subject to such provision.

2. The said Company may construct, erect and maintain, and there is hereby granted to the said Company under and subject to the terms, conditions and covenants herein set forth, permission to construct, erect and maintain its poles, and string and operate a line or lines of wire along the sides and across or under any public highway, street or bridge within the limits of the City of New Westminster, and to do all things which may be necessary in the supplying of electrical current for industrial power and heating purposes:

5. Prior to the erection or repair of any poles by the Company which may render it necessary to dig into or in any manner interfere with any streets or lanes or a portion thereof, the Company shall obtain the consent of the Council in the usual manner, and the work shall be done to the satisfaction of the Board of Works.

6. The Company shall not cut down or mutilate any shade or ornamental trees on the streets of the city without having first obtained permission from the Council.
